

The Ultimate Filter for the Ultimate Intake

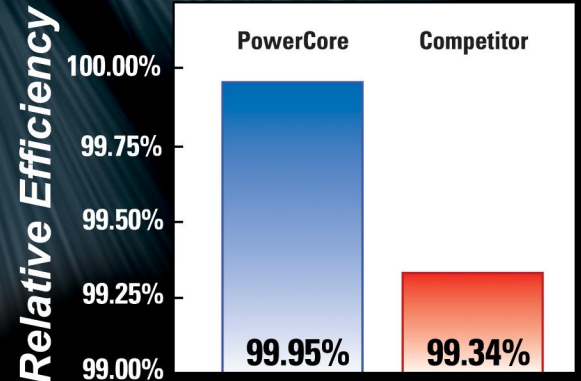

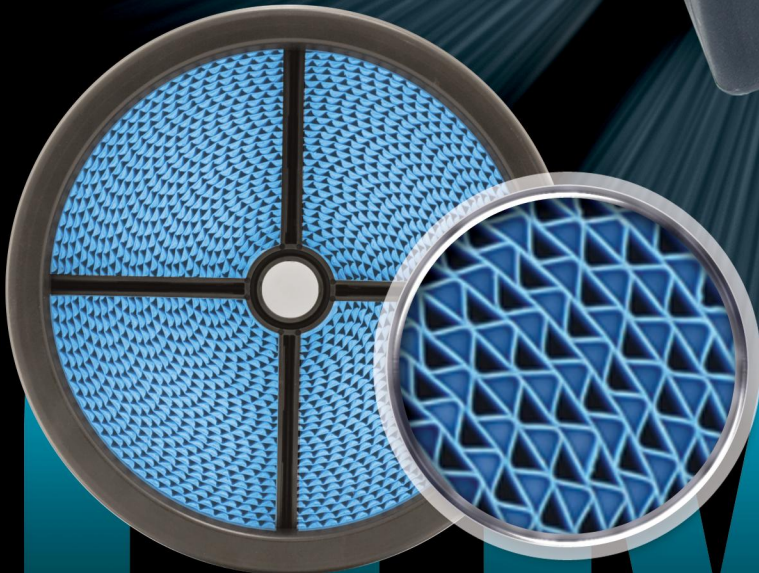

Volant Intake w/PowerCore™

PowerCore™

PowerCore™ Filtration

Overall Efficiency

Improved Filtration Efficiency

PowerCore™ is a registered trademark of Donaldson Company, Inc.

PowerCore™ Filtration technology's straight-through fluted filter design offers all these benefits for users.

- **Maintenance free:**
Up to 75,000 miles. No more time spent cleaning and oiling.
- **Improved efficiency:**
Three times more efficient than conventional pleated filters. Hundreds of staggered flutes insuring greater dirt holding capacity.
- **Meets OEM filter standards:**
99.95% filtration versus 99.34% from our competition.
- **Increased Performance:**
Moderate increase in air flow over 5 layer cotton filters. This means no loss in performance with double the protection.
- **Automotive & Truck Applications**
Applications available soon to fit most aftermarket Air Intake Kits.
